***Examiner's Amendment***

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Stephen Ackerman on June 28, 2006.

The application has been amended as follows:

- Claim 1, line 22: after "negative", the following phrase was inserted: ", wherein said laminated free layer includes at least one lamina of said first ferromagnetic material"; and
- Claim 12, line 26: after "negative", the following phrase was inserted: ", wherein said laminated free layer includes at least one lamina of said first ferromagnetic material".

***Reasons for Allowance***

3. The present claims are deemed allowable over the references of record since the references of record fail to disclose or render obvious the recited structure.

While the prior art of record disclose a laminated free layer comprising a dual layered structure comprising ferromagnetic materials having a positive and a negative coefficient of magnetostriction, the prior art of record fail to disclose or render obvious a free layer comprising at least two (i.e. a plurality) of ferromagnetic layer having a

negative coefficient of magnetostriction in combination with at least one ferromagnetic layer having a positive coefficient of magnetostriction.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### ***Examiner's Comments***

5. In order to better clarify the record, the Examiner wishes to point out that the IDS's filed May 6, 2004 and June 27, 2006 have been considered. Furthermore, the Examiner wishes to note that the present claims are deemed proper even though technically there was never a "claim 4b". The Examiner notes that the present claims are proper and that the prosecution history is clear. As such, the Examiner deems that there is no need to renumber the present claims to reflect the relative location of the now cancelled misnumbered claim.

#### ***Conclusion***
